

Detroit Stoker Company

Aftermarket Replacement Parts

Replacement Parts for Hoffman Stokers

For 100 years, Detroit Stoker Company (DSC) has been the predominant supplier of stokers and combustion related equipment in North America. As the OEM for many types of stokers, DSC is fully committed to aftermarket services and complete plant life extension for most types of solid fuel burning equipment.

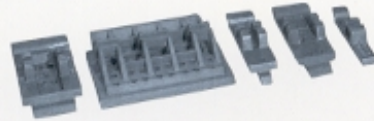

DSC provides the highest quality replacement parts for all stoker manufacturers including:

- Detroit Stokers
- Hoffman Combustion Engineering
- ABB-Combustion Engineering
- Lloyd Stokers
- Coxe Stokers
- Taylor Stokers
- B&W Jet Ignition
- American Engineering
- Canton Stokers
- Zurn Industries
- Laclede Stokers
- Westinghouse Stokers
- Riley Stokers

Hoffman Box Grate with improved air hole design available in a variety of different lengths and widths.

Improved air hole design helps prevent plugging and facilitates cleaning.

Grates available for the PAD and CAD stokers with improved air hole design. Alloyed gray iron is standard with high silicon/molybdenum ductile iron available for extended service life.

Circular Feed Tray, Distributor Assembly and Replaceable Liner Plates available in 'A', 'C' and 'D' widths.

Parts for size 'A', 'C' and 'D' coal feeders.

DSC is uniquely qualified to provide innovative solid fuel firing solutions utilizing our total manufacturing, engineering and service capabilities.

Foundry DSC is the only stoker manufacturer which operates its own foundry to deliver consistent casting quality and support your delivery requirements. Through DSC's ability to analyze existing combustion conditions and materials, we can provide metallurgical enhancements to extend service life.

Construction Services DSC is the only stoker manufacturer to provide complete combustion system service for all major stokers and related equipment. Services include:

- inspection
- training
- tune-up
- turn key repairs/rebuilds
- start-up
- testing
- engineering

Stocking/Consignment As the largest manufacturer of stokers and replacement parts, DSC has the ability to offer stocking and consignment inventory options to meet your plant needs.

Experience DSC's team is unparalleled when it comes to meeting the demands of today's industrial combustion requirements. For 100 years we have provided parts and service for virtually every major stoker type with the quality and service expected by our customers.

Please contact Detroit Stoker Company or your local representative to learn more about how we can meet your exact requirements. Call 1-800-STOKER-4 or 1-800-786-5374.
