

Detroit Stoker Company

Aftermarket Replacement Parts

Replacement Parts for Combustion Related Applications

For 100 years, Detroit Stoker Company (DSC) has been the predominant supplier of stokers and combustion related equipment in North America. As the OEM for many types of stokers, DSC is fully committed to aftermarket services and complete plant life extension for most types of solid fuel burning equipment.

DSC provides the highest quality replacement parts for a variety of manufacturers of combustion related equipment such as:

- Detroit Stoker Company
- Babcock & Wilcox Company
- Energy Products of Idaho
- Redler/Stephens-Adamson
- Combustion Power Company
- Zurn Industries
- ABB-Combustion Engineering
- Stock Equipment
- DB-Riley
- Kvaerner/Tampella
- Pyropower/Foster Wheeler

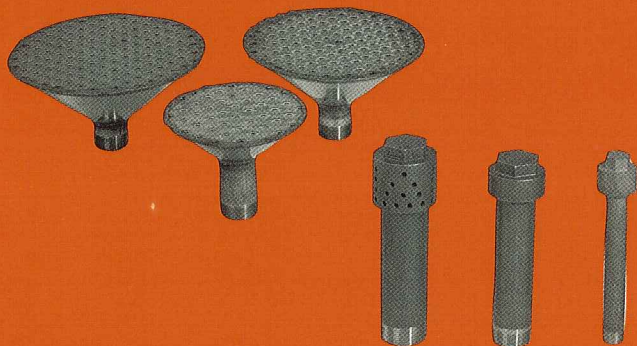

Under Bunker Drag Links manufactured from high strength, wear resistant ductile iron.

En-Masse conveying and elevating U-flights, manufactured from high strength wear resistant ductile iron.

Combustion Nozzle available in alloyed gray iron, high silicon molybdenum, ductile iron and stainless steel for extended service life.

Various combustion tuyeres and nozzles for most circulating fluid bed boilers manufactured from stainless steel are available in several different diameters.

Burner nozzle casting.

DSC is uniquely qualified to provide innovative solid fuel firing solutions utilizing our total manufacturing, engineering and service capabilities.

Foundry

DSC is the only stoker manufacturer which operates its own foundry to deliver consistent casting quality and support your delivery requirements. Through DSC's ability to analyze existing combustion conditions and materials, we can provide metallurgical enhancements to extend service life.

Construction Services

DSC is the only stoker manufacturer to provide complete combustion system service for all major stokers and related equipment. Services include:

- inspection
- training
- tune-up
- turn key repairs/rebuilds
- start-up
- testing
- engineering

Stocking/Consignment

As the largest manufacturer of stokers and replacement parts, DSC has the ability to offer stocking and consignment inventory options to meet your plant needs.

Experience

DSC's team is unparalleled when it comes to meeting the demands of today's industrial combustion requirements. For 100 years we have provided parts and service for virtually every major stoker type with the quality and service expected by our customers.

Please contact Detroit Stoker Company or your local representative to learn more about how we can meet your exact requirements. Call 1-800-STOKER-4 or 1-800-786-5374.
